

STEM Meeting Notes

08 NOVEMBER 2022 / 1 PM / Webex

Attendees

Jessica Schneider, Ronald Cruz, Destiny Kanu, Mohammed Eltayeb, Marina McMahon, Davina Wolfe, Ardei Clerger, Estrella Solano, Aurore Lonyome, Adrian Trotta, Sampson He, and Neftalem Tesfaye.

Agenda

Project Introductions.

Members are given time to introduce their goals for the club.

Notes

Preliminary Projects: Voting took place for future projects; these are the favorites so far.

- Electric Bikes ~ 54.5%
- Robot Olympics ~ 54.5%
- Urban Garden ~ 42%

The electric bike is supposed to be a technological project to make transportation more accessible in Boston. The robot Olympic would be a fun project that would bring attention to the STEM club. Finally, the urban garden focuses more on sustainability by using materials usually sent to landfills. The urban garden also entails a form of composting. These are only preliminary projects; nothing is official yet.

Action Items

1. Feel free to add any other projects you may have in mind, during the next meeting.
2. We ask that you reach out and try to get more students involved.

Agenda For Next Meeting

The Next Meeting will be held next Tuesday, November 15th through webex at 1pm. Further discussions will be held on the feasibility of the projects introduced. Members will be welcomed to introduce more projects if they have any.
